Management Commentary Q2 2024

Our insurance business:

Gross Written Premium increased by 17% and Insurance Revenue increased by 11% compared to the same period for 2023. Premium volume particularly increased in Fire and General Insurance, Engineering and International NM Property FAC reinsurance.

During H1 the UAE experienced several severe weather events with easily the worst event being the April storm – a storm that impacted the whole country, but particularly Dubai. Indeed, the April storm was the worst weather event to hit the country for 75 years with some observers predicting that the gross loss to the entire UAE insurance market will be over US\$2bn.

Whilst the major share of our gross losses is recoverable from our reinsurers, EIC's retained losses after reinsurance still impact our net underwriting results by about AED21m with our motor and property classes most notably affected. The April loss continues to develop, particularly in the property segments, and its effects will undoubtedly continue to be felt in Q3 and Q4.

For H1, once the effects of our Insurance and Reinsurance finance income/expenses are considered, our total insurance income slightly declined to AED 20.6m from AED 24.6m in 2023.

Our investment business:

EIC's P&L investment performance added AED 13m during Q2'24 after a robust Q1'24; as such our YTD P&L Investment income sits at AED 55.0m translating to a YTD Holding Period Return of 3.3%.

During Q2'24, our total portfolio slightly declined by AED 10.1m or 61bps owing to weakness in the regional markets which has primarily been contributed by an underwhelming set of financial results over Q1'24, an adverse outlook on oil prices as OPEC looks to unwind its production cuts, heightened geopolitical risks and a sizable USD12.2bn Aramco IPO in June 2024 that skewed market inflows. Moreover, while inflation data has come off its highs, the widely anticipated rate cuts remain elusive in the middle of 2024 that continues to limit greater upsides, particularly across the bond portfolio.

While we took some profits in Q2'24, our investment activity continues to be geared towards optimizing portfolio exposures and in turn, target higher risk adjusted returns for our shareholders.

Other expenses

These expenses relate to operating expenses which cannot be attributed directly to the insurance business of the company. Other expenses increased by 5.5% from Q2_2023 mainly due to one off consulting expenses.

Net Profit after tax

2024 marks the introduction of corporate taxation for the UAE and hence our net profit is now reported after tax. Our Net profit decreased from AED 60.1m Q2_2023 to AED 52.4m at the end of Q2_2024 mainly due to the impact of the severe weather events and a provision for corporate tax of AED 2.5m.

Balance Sheet:

The Total Assets of the Company have increased 17.6% to AED 2.82 billion from December 2023. The increase in the assets is attributable to the top line growth in the business and an increase in recoveries from our reinsurers due to the weather events.

Shareholders Equity declined by 3.7% mainly due to the AED 82.5m dividend paid to the Shareholders in April 2024.

Our liquidity, solvency and working capital position continues to remain very strong. This was emphasized during the recent S&P Global annual review where our "A-" was reconfirmed.

- notes to the condensed interim financial information.

Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with IAS 34, '*Interim Financial Reporting*'. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements 2410, '*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*'. A review of condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Notes to the condensed interim financial information

1 Legal status and activities

Emirates Insurance Company P.J.S.C. (the "Company") is a public joint stock company which was incorporated in Abu Dhabi, United Arab Emirates on 27 July 1982. The Company is registered in accordance with UAE Federal Law No. (48) of 2023 concerning Insurance Companies and Agents and is governed by the provisions of the Federal Law No. (32) of 2021 concerning the commercial companies, Central bank of UAE Board decision No. (25) of 2014 pertinent to Financial Regulations for insurance companies and Insurance Authority's Board of Directors Decision No. (23) of 2019 concerning Instructions Organizing Reinsurance Operations, and is registered in the Insurance Companies Register of Central Bank of UAE under registration No. (2). The Company's principal activity is the writing of general insurance and reinsurance business of all classes. The Company operates through its head office in Abu Dhabi and branch offices in Dubai, Al Ain and Jebel Ali Freezone. The Company is domiciled in the United Arab Emirates and its registered office address is P.O. Box 3856, Abu Dhabi, United Arab Emirates.

2 Basis of preparation

(a) Statement of compliance

The condensed interim financial information has been prepared in accordance with International Accounting Standard (IAS) 34, *Interim Financial Reporting* and also complies with the applicable requirements of the laws in the UAE.

It does not include all of the information required for full annual financial statements and should be read in conjunction with the annual financial statements of the Company for the year ended 31 December 2023, which were prepared in accordance with International Financial Reporting Standards ("IFRS").

(b) Basis of measurement

The condensed interim financial information has been prepared under the historical cost convention except for the financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income which are carried at fair values and insurance and reinsurance contracts which are measured at the estimated fulfilment cash flows that are expected to arise as the company fulfils its contractual obligations.

(c) Functional and reporting currency

The condensed interim financial information is presented in United Arab Emirates Dirhams ("AED"), which is the Company's functional currency. Except as indicated, the financial information presented in AED has been rounded to the nearest thousand.

(d) Use of judgments and estimates

In preparing the condensed interim financial information, management has made judgments and estimates that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the period in which the estimate is revised and in any future period affected.

The significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements for the year ended 31 December 2023.

Emirates Insurance Company P.J.S.C.

Notes to the condensed interim financial information

3 Material accounting policies

The accounting policies applied in the condensed interim financial information are the same as those applied in the Company's financial statements as at and for the year ended 31 December 2023, with the exception of below;

On 9 December 2022, the UAE Ministry of Finance released the Federal Decree Law No. 47 of 2022 on the Taxation of Corporations and Businesses (the Law) to enact a Federal Corporate Tax (CT) regime in the UAE. The CT regime will become effective for accounting periods beginning on or after 1 June 2023.

For the Company, accounting for current and deferred taxes have become applicable from the period beginning 1 January 2024. Accordingly, management has applied following accounting policy to incorporate the applicable corporate tax.

Taxation

Current Taxation

The Cabinet of Ministers Decision No.116/2022 effective from 2023, specifies the threshold of income over which the 9% tax rate would apply and accordingly, the law is now considered to be substantively enacted. A rate of 9% will apply to taxable income exceeding AED 375,000, a rate of 0% will apply to taxable income not exceeding AED 375,000. The income tax expense is recognized at an amount determined by multiplying the profit before tax for reporting period ended 30 June 2024 by management best estimate of the weighted-average annual income tax rate expected for the full financial year, adjusted for the tax effect of certain items recognized in full in the period.

Provision of current tax is based on the taxable income for the period determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates expected to apply to the profit for the period.

Deferred Taxation

Deferred tax is accounted for in respect of all temporary differences at the statement of financial position date between the tax base and carrying amounts of assets and liabilities for financial reporting purposes. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the tax rates (and tax laws) that have been enacted or substantively enacted at the statement of financial position date. Deferred tax is charged or credited to the statement of profit or loss, except in the case of items credited or charged to statement of other comprehensive income or equity in which case it is included in statement of other comprehensive income or equity.

In accordance to the Article 127 – Unrealised gains and losses, taxable persons are required to include any realised or unrealised gains and losses reported in the financial statements in the calculation of their taxable income, if they would not subsequently be recognised in their income statement. This is unless they make the election to use the realisation basis. The Company has opted to not to elect the use of realisation basis and therefore include any realised and unrealised gains reported in the financial statement in its taxable income calculation. Hence there is no deferred no tax asset/liability is recognised in these condensed interim financial statements.

Emirates Insurance Company P.J.S.C.

Notes to the condensed interim financial information

3.1 Standards issued but not yet effective

21 Fair value of financial instruments

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 – fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 – fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

21 Fair value of financial instruments (continued)

There were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of Level 3 fair value measurements during the period. The investments in quoted equities and bond portfolio are valued based on quoted prices in an active market and thus these have been classified as Level 1. For investments under Level 3, the fair values are based on Net Asset Value (NAV).

For investment in funds, the fair values are based on Net Asset Values (NAV) calculated by the respective fund managers. For investments in unquoted equity securities, the fair values are based on internal valuation techniques such as discounted cash flows and comparable companies' multiples. The valuation of funds and unquoted equity securities qualifies as Level 3 fair value measurement.

21 Fair value of financial instruments (continued)

Investments at amortised cost comprise mainly of fixed income bonds and sukuk. The fair value of these bonds and sukuk are determined based on quoted prices in an active market and classified as Level 1 fair value measurement. Except for the above, management consider that the carrying amounts of financial assets and liabilities recognised in the financial statements approximate their fair value.

22 Financial risk management

Company's risk management policies with regards to financial instruments are the same as those disclosed in note 29 to the annual financial statements of the Company for the year ended 31 December 2023.

23 Capital risk management

The solvency regulations identify the required solvency margins to be held in addition to insurance liabilities. The solvency margins (presented in the table below) must be maintained at all times throughout the year. The Company is subject to solvency regulations which it has complied with during the period. The Company has incorporated in its policies and procedures, the necessary tests to ensure continuous and full compliance with such regulations.
